HOBSONVILLE POINT Gardening & Landscaping Day

25th November 2017

10am - 4pm

The owners of these gardens have volunteered or been persuaded to make their gardens available. They do not claim to be experts but they do wish to encourage others to enjoy gardening and outdoor living as much as they do.

Among these gardens there is a range of styles, sizes and plant selections. Some gardens have been established for a few years, although Hobsonville Point is a new community so all of them are relatively recent, and some are newly planted.

Some gardens were designed by professionals and others were created by enthusiasts.

The owners will be available to discuss what has worked and what has been less successful.

At some of the gardens you will have the opportunity to see features other than plants: worm farms, storage facilities, lawn types, overhead protection, composting, herbs...

Enjoy the Visits.

VISIT ALL OR SOME OF THESE GARDENS

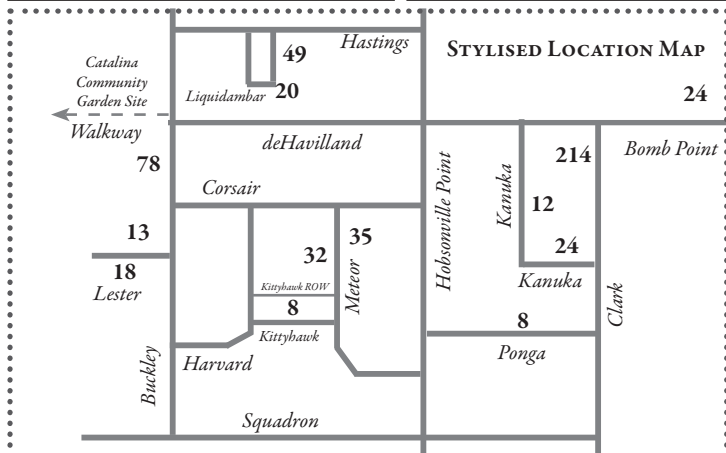

They have been grouped into locations
